

# Our Wonderful World Newsletter

## Autumn Term 2021

Our Wonderful World is a curriculum group that consists of PE, Modern Foreign Languages and Geography.

Each of these subject builds on the initial learning in our fantastic Early Years unit, with skills and knowledge progressing each year.

### PE

In KS1 the focus has been on Dance and Gymnastics; how to move with consideration to travel and balance.

KS2 have also been focusing on Dance and Gymnastics; they have progressed the skills learned in KS1 to build up to completing a dance as part of a group using different dance styles. Year 4 have also had the pleasure of Swimming this year to learn a valuable life skill.

### Modern Foreign Languages

Year 5 Squirrels and Year 6 Foxes have worked hard this term on their French, in particular on their verbal greetings, and even writing sentences about what they can do! This has built on previous years' learning, and will continue to develop throughout the year to truly create an appreciation of a modern foreign language before they transition to secondary school.

### Geography

Year 3 Hedgehogs and Year 4 Otters have spent a lot of time looking at where important places are in the world, and labelling these on a map. This includes naming countries within the British Isles, and looking further afield at the continents and oceans of the world.
